

There are 3 different track heads with different tracks. They are a little difference in installation.

Firstly to install the tracks as following:

1. Two-wires Track Light Installation

Step 1:
fix the track firmly

Step 2:
make sure the knob switch 1T and 2 are "off"

Step 3:
put the track light into the track

Step 4:
turn the knob switch 1 and 2 to "on" Installation completed..

2. Three-wires Installation

Step 1:
fix the track firmly

Step 2:
make sure the knob switch 1T and 2 are "off"

Step 3:
put the track light into the track

Step 4:
turn the knob switch 1 and 2 to "on" Installation completed..

3. Four-wires Installation

Step 1:
fix the track firmly

Step 2:
turn the knob switch 1 to the position, make sure the knob switch 2 is "off" as shown

Step 3:
put the track light into the track

Step 4:
turn the knob switch 1 to the position as shown, then turn the knob switch to the gear range (1, 2, 3) Installation completed..
