

There are 3 different tracks installations. They are a little difference in installation.

Surface installation

There is screw hole on the track body. So for surface installation, it is easy, only to use 2 screws to fix the tracks onto wall or ceiling.

Pendant installtion

Recessed track installation

<p>1</p> <p>The height shall be reserved at least 70mm</p> <p>40mm</p>   <p>To determine the location of the opening, the slot length should be slightly larger than the length of the rail strip. For example, for 1000mm track bar, the slot length should be 1005mm</p>	<p>2</p>  <p>Put recessed fixing accessories into ceiling hole</p>
<p>3</p>  <p>Using screws to fix to recessed accessories</p>	<p>4</p>  <p>Install track into hole</p>   <p>There is same hole onto track and recessed accessories, just using screws to fix both</p>
